

HY-LITE

REVOLUTIONARY CONDITIONING TREATMENT FOR ENGINES, PLASTICS AND RUBBER

Multi Purpose: A unique multi function spray conditioner for use where speed, versatility and superb finish are essential.

Classic Finish: Hy-lite gives a long lasting 'as new' finish to a wide variety of surfaces:
ENGINE COMPARTMENT: Metal, plastics, alloys, paintwork, rubber.
EXTERIORS: Plastic and rubber trim, bumpers, tyres etc.

No Delay: Hy-lite can be applied to damp surfaces; no waiting for complete dry conditions.

User Friendly: No aromatic solvents.

Directions:

Engine compartments must be clean before treatment. Apply using a trigger spray ; wipe over with Hand-Mitt or dry cloth to even dressing.

NB.

Do NOT APPLY to hot surfaces.
 Do not use on any driving controls (e.g. rubber pedals or rubber mats).
 Not suitable for spray application in paintshop environment.
 Do not use on motorbike tyres.
